INTRODUCING THE ABKONCORE T404B

The Netherlands, 23 april 2020 - Introducing the Abkoncore T404B Hurricane universal socket CPU cooler with two Hurricane RGB fans, give this cooler a luxurious and simply cool appearance.

Abkoncore today rolled out the T404B Hurricane tower type CPU air cooler under its Cool Storm code name series. Its design involves a conventional tower-type aluminum fin-stack heatsink that's ventilated by two 120 mm addressable RGB fans in push-pull configuration. This item provides capacity of up to 170 W TDP, and includes support for INTEL LGA115x, LGA2066 and AMD all the way to AM4 sockets.

The heatsink design of the CT404B DUAL SYNC involves a base at which four 6 mm-thick copper heat pipes make direct contact with the CPU, conveying heat through the fin-stack, which is then ventilated by the fans. Each of the two 120 mm fans takes in 4-pin PWM for their main function, spin between 800 to 1,800 RPM, pushing a little over 50 CFM of air with maximum noise output of 33 dBA. The fans feature addressable RGB lighting, and take in 3-pin ARGB input. Measuring 128 mm x 107 mm x 157 mm (WxDxH), it weighs 1 kg. Available now, the Abkoncore Cool Storm T404B Hurricane is priced at €39.95,-

SHORT SPECIFICATIONS:

Model: T404B Hurricane Sync

Materials: Aluminium Fins + four 6mm heatpipes
Two aRGB 120mm Hurricane fans

Dimensions: (WxDxH): 128x107x157mm

Weight: 875g

CPU support: INTEL 775/1155/1156/1366/2011/2066
AMD AM4/FM2/FM1/AM2/AM2+/AM3/AM3+/AM4

Cooling Fan: Two aRGB 120mm Hurricane fans + sync control hub included

Bearing: Hydro

Speed: 800~1800RPM+/-10%

Noise level: 33.0 dBA (max)

Connector: PWM 4pin / 3pin +5V aRGB connector

Input voltage: 12VDC

TDP: 170W

ITEM NUMBER:

CT404B DUAL SYNC

MANUFACTURER SUGGESTED RETAIL PRICE:

€39.95 / \$ 42.99
