

Press Release: for immediate publication

X2 is announcing the ISOLATIC chassis

Maarheeze, The Netherlands, 24 April 2015. From the design heart of Europe X2 is introducing a new addition to its product line: The iconic ISOLATIC series full-tower pc enclosure is built for people that just love playing with computers. With ample room for up to 5 drives, 7 expansion slots for the installation of long graphics cards (370mm length VGA card) and superior cooling through the 4x 120/140mm fan mount locations throughout this chassis. The ISOLATIC 6020 offers easy upkeep shortcuts like tool-free removal of side panels, hard drives, and graphics cards. A all-speed fan control button and generous options for peripheral connections make the front-panel a complete multimedia gateway. Constructed out of 0.5mm SPCC steel with reinforced EMI shielding the ISOLATIC 6020 chassis structure is furnished with great cable management features that facilitates neat cable routing & enhanced system airflow. Show off your hardware and neat interior through the stylish acrylic window this chassis is versatile and a great pick for your next system build, modding project or gamer system. X2 performance PC hardware – All geared up!.
